Highlights

from our Last Quarterly Meeting

The RIXML organization held its second quarterly members' meeting of 2018 at the 120 Park Avenue office of Bloomberg in New York City. Jim Ulrich, RIXML Executive Director, opened the meeting with his welcoming remarks.

We had planned a presentation from Jon Boos, VP of Sales at BitGo, entitled "Cryptocurrency – What is it, what is its purpose, how is it secured". He was, however, delayed by his flight into New York and was unable to attend. Instead, Weiyee In and Sal Restivo led an impromptu discussion on the same subject.

Roman Kitov followed with his Treasurer's Report for the preceding quarter. Sal Restivo gave an update on the activities of the Standards Committee. Deirdre Goldenbogen joined Jim to review the Interactions Data Dictionary and the on-going work to re-vamp the RIXML web site.

Activity Summary

See the table below for a summary of RIXML activity that has taken place during the last quarter.

Date	Work Stream	Venue	Host	Main Topics
